2017	175	66	63	21
2018	173	78	54	30
2019	154	75	61	24
2020	260	179	76	49
2021 1 st qtr.	97	80	14	27

*Deaths in these categories can be from just one drug by its self or a combination of many drugs. For example, if the death was from mixed drugs of fentanyl, heroin and methamphetamine, it will be counted in each column. Therefore, so far this year, of the 97 overdoses, 80 had fentanyl detected, 14 had heroin detected and 27 had detected.
